Let's Make Healthy Change Happen.

Quality Improvement Plan (QIP) Narrative for Health Care Organizations in Ontario

Supportive Housing

March 2017

This document is intended to provide health care organizations in Ontario with guidance as to how they can develop a Quality Improvement Plan. While much effort and care has gone into preparing this document, this document should not be relied on as legal advice and organizations should consult with their legal, governance and other relevant advisors as appropriate in preparing their quality improvement plans. Furthermore, organizations are free to design their own public quality improvement plans using alternative formats and contents, provided that they submit a version of their quality improvement plan to Health Quality Ontario (if required) in the format described herein.

Overview of Our Organization's Quality Improvement Plan

Overview

The objective we focus on in our QIP is aimed at improving client-centred care, particularly related to improving clients' understanding of the services available to them through our Supportive Housing program. We chose this objective to respond to feedback from Supportive Housing (SH) clients that identified it as an area where there is room for improvement on the 2016 Pleasant Manor Supportive Housing Client Satisfaction Survey.

Our QIP aligns with the quality objectives of our organization's strategic plan, and with our Multi-Sector Service Accountability Agreement (M-SAA). Further, our QIP aligns with provincial and regional strategies of client-centred care, as well as Seniors Strategy in the province. It is integrated with Health Quality Ontario's (HQO) and the Local Health Integration Network's (LHIN) health services plan that focuses on client experience.

Quality Improvement Achievements from Past Year

We had some setbacks as we implemented our QIP this past year because some of our change ideas were difficult to implement and measure, and were not necessarily predictive of the overall objective. We also changed our measurement rating scale throughout the year to be in line with our other surveys so it is unclear how well we achieved our target performance. Depending on how we cut the data, we either had a major decrease in satisfaction or a major increase. This quality improvement plan was not completed as intended. For the coming year, we will focus on creating a quality improvement plan that is achievable and measurable, and we will hold monthly meetings to review progress and next steps.

Following our first full QIP year, we identified a need to modify our Quality Calendar to better align our annual survey season with the QIP cycle, which we did this past year. This change improved the accuracy and timeliness of our measurements and feedback cycle, and has allowed the success of our QIP implementation to reflect in our final measurement.

Equity

Our organization is owned and operated by a faith and ethnic specific community. As such, we have and will continue to offer materials in the predominant languages reflected within our resident and tenant populations.

Integration and continuity of care

Pleasant Manor and Tabor Manor, which are sister homes, have a Quality Council (QC) that oversees the quality improvement strategy and initiatives at both homes. The homes work together and align objectives to create positive change in both locations. We are a member of the Ontario Association of Non-profit Homes and Services for Seniors (OANHSS) Region 2 Administrators group and the Hamilton Niagara Haldimand Brant (HNHB) Long Term Care Homes (LTCH) Network and Niagara Senior Supportive Housing Network (NSSHN), and have been working with these groups to develop quality improvement initiatives.

Engagement of clinicians and leadership:

Our leadership staff were involved in the creation of the objectives and action plans on our QIPs through our SH Continuous Quality Improvement Committee (CQIC). We have engaged in conversations with Brock & DeGroote School of Medicine, Niagara Campus, as partners in our quality journey. Our management team has obtained certification through Improving & Driving Excellence Across Sectors (IDEAS) training. Our QIP was reviewed and approved by the Pleasant Manor and Tabor Manor Board of Directors on Wednesday, March 22, 2017.

Patient/Resident/Client Engagement

Upon receiving our Supportive Housing Client Satisfaction Survey results, staff identify an area for improvement and create an action plan. We then report back to the Tenant Council to let them know how we plan to improve in the identified area.

Staff Safety & Workplace Violence

A first step in identifying what action steps to develop to monitor, reduce, and prevent workplace violence, is to know what, if anything, is occurring. As such, our annual Employee Engagement Survey seeks to uncover whether or not discrimination and harassment exists within the home, and, if so, to what extent. Based on survey results, our organization will be able to respond accordingly.
