The Great Migration

Scientists are still mystified by how animals know when it's time to migrate. How do they find their way back to places they have not seen since birth? Green sea turtles swim from Brazil to tiny Ascension Island and back, a trip of 6,000 miles! The Arctic tern has the longest migration of any animal, flying from the Arctic to the Antarctic and back, a roundtrip journey of nearly 25,000 miles!

How do they chart their courses? What inner sense is within every species to move such long distances on a seasonal basis? Actually, we know that God Himself has imprinted His 'migration map' in them by way of instinct!

Most amazing however, is when Jesus Christ told His disciples that He would be leaving earth and ascending to Heaven. He said, 'I go to prepare a place for you! And if I go and prepare a place for you, I will come again and will take you to Myself, that where I am you may be also!

As to the directions for the trip, Jesus said; 'You know the way to where I am going!' Thomas said, Lord, we don't know where you are going...How can we know the way? But Jesus said, 'I am the Way, The Truth, and The Life. No one can come to the Father except through Me!' (John 14:2-6)

The greatest migration in all of history will be when Jesus leads those who have accepted Him as Saviour and Lord back to His Eternal Home with His Heavenly Father! What a migration that will be!

Are you ready for the trip? Trust in Jesus as your Way, Truth and Life today...That's the ticket for the Greatest Migration ever!
