Supportive Housing
March 2023

This document is intended to provide health care organizations in Ontario with guidance as to how they can develop a Quality Improvement Plan. While much effort and care has gone into preparing this document, this document should not be relied on as legal advice and organizations should consult with their legal, governance and other relevant advisors as appropriate in preparing their quality improvement plans. Furthermore, organizations are free to design their own public quality improvement plans using alternative formats and contents, provided that they submit a version of their quality improvement plan to Health Quality Ontario (if required) in the format described herein.

Overview of Our Organization's Quality Improvement Plan

Overview

The objective we focus on in our QIP is aimed at improving client experience, particularly enhancing social well being of supportive housing clients. We chose this objective in response to feedback from Supportive Housing clients that identified a number of social activities they would like to participate in on the 2022 Tabor Manor Supportive Housing Satisfaction Surveys.

Our QIP aligns with the quality objectives of our organization's strategic plan.

Reflections since your last QIP submission

Over the past year, we focused on keeping clients, staff, visitors, and family members as safe and supported as possible throughout the pandemic. As we begin to move out of pandemic response, we are focusing our quality improvement efforts on specific initiatives to improve client satisfaction in the area of personal connections and to combat the impact of social isolation.

Patient/client/resident engagement and partnering

Upon receiving our Supportive Housing Satisfaction Survey results, we reviewed feedback to establish an area for improvement. Staff created an action plan to provide social opportunities based on suggestions made.
