Supportive Housing
March 2024

This document is intended to provide health care organizations in Ontario with guidance as to how they can develop a Quality Improvement Plan. While much effort and care has gone into preparing this document, this document should not be relied on as legal advice and organizations should consult with their legal, governance and other relevant advisors as appropriate in preparing their quality improvement plans. Furthermore, organizations are free to design their own public quality improvement plans using alternative formats and contents, provided that they submit a version of their quality improvement plan to Health Quality Ontario (if required) in the format described herein.

Overview of Our Organization's Quality Improvement Plan

Overview

The objective we focus on in our QIP is aimed at improving client experience, particularly related to participating in the development of the client care plan. We chose this objective to respond to feedback from supportive housing (SH) clients that identified it as an area of lower satisfaction on the 2023 Pleasant Manor Supportive Housing Client Satisfaction Survey.

Our QIP aligns with the quality objectives of our organization's strategic plan, and with our Multi-Sector Service Accountability Agreement (M-SAA). Further, our QIP aligns with provincial and regional strategies of client-centred care, as well as Seniors Strategy in the province. It is integrated with Health Quality Ontario's (HQO) and the Home and Community Care Support Services (HCCSS) health services plan that focuses on client experience.

Describe your Organization's Greatest Quality Improvement Achievement from the Past Year

We successfully implemented our QIP this past year, surpassing our goal of providing enhanced social care to identified tenants. In accordance with our three-year Strategic Plan of recovering, rebuilding, restoring, we offered a number of community events to our seniors throughout 2023. A new multi-disciplinary team meets regularly to discuss clients who are at risk of social isolation and provide supports to assist them.

Patient/Client/Resident Partnering & Relations

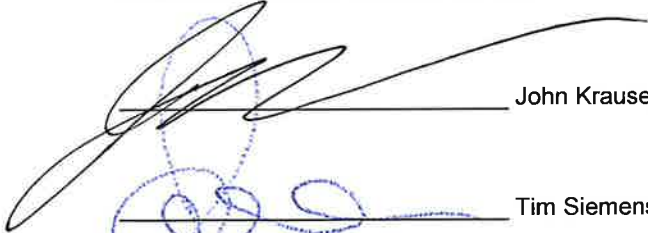

Upon receiving our Supportive Housing Client Satisfaction Survey results, staff identify an area for improvement and create an action plan. We then report back to the Tenant Council to let them know how we plan to improve in the identified area.
