Preacher’s Ponderings

With June, our church calendar moves into the season of Ordinary Time. This is not to imply that our walk of discipleship with Jesus moves into a time when things are simply routine or mundane. Rather, it is meant to recognize ordered way that Jesus guides and directs our lives outside the major seasons of Advent and Christmas or Lent and Easter. During Ordinary Time, we strive to see the way that Jesus’ presence is infused in the way that we live day to day. Through the interactions we have with others; through the challenges; through the joys. So, our question is, how might we experience June within expectation of seeing Jesus move in and around us? Come July, what stories could we tell?
